Open Calls

Call to support research projects conducted with participation of universities from Hungary

The Ministry of Education and Science of the Russian Federation has announced the selection of research projects conducted with participation of research organisations and universities from Hungary.

The project should be implemented within the selected prioritized research fields :

- biotechnology.

Maximum amount of grant per each Agreement should not exceed 10 million rubles to be distributed in the following manner:

in 2018 - up to 3,33 mln. rubles;

in 2019 – up to 3,33 mln. rubles.

in 2020 - up to 3,33 mln. rubles.

Application deadline: **September 18, 2017.**

Call to support research projects conducted with participation of universities from the UK

The Ministry of Education and Science of the Russian Federation has announced the selection of research projects conducted with participation of research organisations and universities from the UK.

The project should be implemented within the selected prioritized research fields :

- cognitive disorders.

Maximum amount of grant per each Agreement should not exceed 10,8 million rubles to be distributed in the following manner:

in 2018 - up to 3,6 mln. rubles;

in 2019 – up to 3,6 mln. rubles.

in 2020 - up to 3,6 mln. rubles.

Application deadline: **September 19, 2017.**

[Joint competitions of the Russian Foundation for Basic research \(RFBR\) and National Research Council \(CNR\)](#)

The objective of this competition is to welcome projects on basic scientific research and to grant financial support for prospective research projects that are conducted by individuals from Russia and Italy in the field of "Biotechnology and medical sciences".

Project duration - 3 years.

Russian participants and Italian parties should agree on the content and the name of the studies, and submit their projects **by October 13, 2017.**

Joint competitions of the Russian Foundation for Basic research (RFBR) and National Center for Scientific Research of Bulgaria

The objective of this competition is to welcome projects on basic scientific research and to grant financial support for prospective research projects that are conducted by individuals from Russia and Bulgaria in the field of "Biology".

Project duration - 2 years.

Russian participants and Austrian parties should agree on the content and the name of the studies, and submit their projects **by October 15, 2017**.

http://www.rfbr.ru/rffi/ru/contest/o_2043234

Joint competitions of the Russian Foundation for Basic research (RFBR) and European Molecular Biology Laboratory

The aim of the competition is to grant financial support for initiative research projects being conducted by Russian scientists and representatives of the European Molecular Biology Laboratory.

In the competition can participate projects on basic scientific research conducted in the following fields:

- Structural biology;
- Genomics;
- Biomolecular chemistry;
- Cell biology/imaging;
- XFEL technology development for life science application;
- High performance computing;
- Proteomics;
- Biochip diagnostics and engineering biochips;
- Neurosciences, including neuro-mapping.

Project duration – 2 or 3 years.

Call deadline – 01.08.2017

**Joint Russian-French initiative research projects
competition of the Russian Foundation for Basic research
(RFBR) and Centre National de la Recherche Scientifique
(CNRS)**

The aim of the competition is to grant financial support for initiative research projects being conducted by Russian and French scientists in frames of international associated laboratories and international scientific associations.

The Competition supports basic research projects being conducted by joint Russian and French scientific teams in frames of international associated laboratories and international scientific associations:

- «From Molecular to Cellular Events in Human Pathologies» - GDRI MCEHP (agreement is valid till 31.12.2018)
- «Targetting RNA into mitochondria: mechanisms, functions, biomedical applications» - LIA ARNmitocure (agreement is valid till 31.12.2018)
- «French -Russian Oncology Research Laboratory» - LIA LFR20 (МАЛ) (agreement is valid till 31.12.2019)

Russian and French scientists, supervisors of the joint project, must agree in advance on the name and content of their applications and submit the applications to RFBR (Russian) and CNRS (French).

Project duration – 1,2,3 or 4 years.

Call deadline – 01.12.2017.
